UWDMA MEMBERS CORNER

Proud to announce that LGF SYSMAC in collaboration with ABES Engg College has invented India's first "Integrated Hardware Operating Life Cycle Testing Machine - MARK 1". This machine was inaugurated by Sh DS Sachdev, Former Director General, CPWD on 16th February 2019 at a glittering ceremony at ABESSEC campus.

The event was attended and celebrated by over 100 dignitaries from the

government, industry and education sector. This machine, is a perfect example of industry-academia alliance will be commissioned at our factory soon and this will help us deliver "PULSE" aluminium & upvc hardware products to our customers duly tested and confirmed to International Standards.

This single machine has the ability to test casement & sliding door & window hardware and will set a new benchmark

of testing hardware in the Indian fenestration industry.

LGF SYSMAC dedicates this machine to the Indian Building Hardware industry and we shall be working closely with govt authorities and other hardware manufacturers to have this machine installed at their premises to uplift the overall performance of the hardware industry.
