ACCREDITED BY:

Koemmerling is a globally renowned and leading brand having rich legacy of more than 127 years in the uPVC window and door systems industry. Koemmerling is known for its technically advanced systems, which remain the epitome of excellence by keeping the quality at highest level. Made with German precision, Koemmerling has been the **flag** bearer for upscaling the quality standards and introducing new dimensions to the Indian fenestration industry.

profine India, the 100% owned subsidiary of profine GmbH, with its global headquarters at Pirmasens, Germany and presence in over 100 countries, has been manufacturing and supplying the wide range of Koemmerling systems across India and abroad. To make the supply chain easy and effective, profine India has established a modern state-of-the-art facility, equipped with the most advanced machinery and tools at Vadodara, Gujarat. It's attention to quality, innovative designs, efficient processes, and awareness towards sustainability, makes the brand stand out from others in the competition.

Strategic Innovation, Technological Advancement and Commitment has enabled Alstone Industries and Reynobond India to reshape the nations building material ecosystem. Under the leadership of Mr. Pawan Garg, the enterprise became the first to manufacturer Aluminum Composite Panels (ACP) in 2004, Silicone Sealants in 2011 and Wood Plastic Composites (WPC) IN 2012 from its plant equipped with advanced machinery at Rajasthan, India. The genesis of the story of Alstone Industries & Reynobond India traces back to 1992 when it first ventured into the glass processing sector during a time when technological limitations constrained India's architectural potential. It as always been the endeavor of the enterprise to provide a comprehensive solutions to Architects, Builders, Interior designer and construction professionals in India.

## ABOUT US

We are a manufacturer of high-quality **GI Reinforcement Sections for uPVC doors and windows.**

Engineered for strength, precision, and long-term durability, our reinforcements are the backbone of reliable uPVC frame installations.

With custom profiles, various thickness options, and a commitment to timely delivery, we support uPVC fabricators and builders with consistent, made-to-fit solutions — all manufactured in-house to meet industry standards.

## QUALITY THAT SUPPORTS. STRENGTH THAT LASTS.

- **Precision & Compatibility**

Our reinforcements are custom-made to perfectly fit major uPVC profile systems.

- **High Strength & Durability**

Manufactured using premium-grade galvanized iron to ensure long-lasting support and corrosion resistance.

- **Fast Turnaround Times**

Timely delivery, even on bulk orders. We understand the pace of your projects.

- **Competitive Pricing**

Top-notch quality without the premium price tag. Save more by buying direct from the manufacturer.

# ORGADATA

Orgadata AG, the developer of Logikal, is headquartered in Leer, Germany. With subsidiaries in over 20 countries, the company brings more than 40 years of industry experience. Its core product, Logikal, is the world's most widely used fenestration software, offering solutions for estimating, material take-offs, fabrication, and project management.

Logikal is tailored to the needs of its customers. Using a sophisticated logic checking process during input, the program ensures that the creation of door, window and curtain wall items is easy, fast and reliable. Logikal features a huge database containing current data of all major aluminium, steel and PVC profile and hardware system suppliers. It offers interfaces with affiliated software solutions used for quotations or constructions, making it particularly time- and cost-efficient for its users. The software is available in several languages. More than 18,000 licences are in use worldwide.

# WINDOWMAKER

Windowmaker is an established software company with over 40 years of experience and with a presence in India since 1985. Our products have been developed and enhanced with best practices followed worldwide, including quality-conscious and system-driven European markets. With over 11,000+ licences supplied worldwide, we strive to continuously innovate, deliver robust, reliable and flexible software solutions. Custom developments are also available to meet the changing needs of the industry.

OSAKA was established in year 1981. We have been into the manufacturing and exporting of EPDM Rubber Profile products for sealing applications used in a wide range of industries like Automobiles, Constructions, Aluminum, and UPVC Fabricators, Shipping, Railways, and Glass insulating units. In addition to EPDM, the rubber profile products are manufactured using various other Synthetic Rubber like TPV / TPE, Neoprene, Silicone., as per client's requirements and specifications.

- Rubber Profiles for UPVC Doors & Windows
- Architectural Building Rubber Profiles
- TPE/TPV Rubber Profiles
- Expansion Joint Rubber Gaskets
- Sponge Rubber Profiles
- EPDM Rubber Membrane
- Container Door Seals
- Moulded Rubber Products
- Silicone & Neoprene Rubber Gaskets
- Roofing Tape
- Flashing Tape/ Flash Strip
- Vaccume Bag Tape/ Tacky Tape (Butyl)
- Cork Insulation Tape
- Butyl Mastic Tape
- Solar Panel Gasket
- Fire Retardant Gasket

We are excited to introduce our newly established manufacturing facility in Mumbai, dedicated to producing premium-quality pile weather strips (wool pile). Our factory is equipped with state-of-the-art machinery, and we adhere to the highest industry standards to ensure the durability, performance, and perfection of every product we create. At PYKNA, we specialize in offering a wide range of pile weather strip solutions tailored to various applications for doors and windows. Our products are designed to provide optimal sealing and insulation, ensuring the best possible performance for your projects. With a focus on research, production, and global sales, our commitment to quality has earned us a solid reputation in the market. We utilize advanced technology and maintain stringent quality control to deliver products that consistently meet or exceed industry expectations.

# **ADDITIVES**

# Baerlocher India

Baerlocher India, a prominent leader in the PVC and CPVC additive industry has strategically expanded its operations into the Specialty Additives (SPA) sector, catering to both polymer and non-polymer markets. Upholding our core values of Respect, Integrity and Excellence, we operate a state-of-the-art manufacturing facility in Dewas, near Indore (M.P.). This is complemented by our extensive network of 22 stocking locations, ensuring prompt delivery nationwide.

We take immense pride in our Baerlocher Research and Innovation Centre (BRIC), a DSIR-recognized R&D hub, and our team of experts who deliver exceptional value-added services to our esteemed customers.

## Additives for UPVC Profiles

In the production of white PVC window profiles, achieving the specified initial color is paramount. Our innovative stabilizer one-packs provide excellent thermal stability ensuring precise initial color and exceptional color fastness. Additionally these one-packs facilitate smooth processing with minimal plate-out and support the attainment of superior weatherability and impact properties, making them a reliable choice for high-quality durable PVC window profiles.

## **FABRICATION MACHINERY**

Elumatec was founded in 1928 in the Swabian town of Mühlacker, between Karlsruhe and Stuttgart. At first we produced sand-cast parts; woodworking machines came later. In the 60s we focused consistently on profile machining for various materials, and with great success. Our clear focus on our ultimate goal – to secure and increase our customers' productivity – has made us a global market leader in the manufacture of machines for processing aluminium, PVC and steel profiles.

**“Someco is the new name of the division of the Voilap group that operates in the PVC sector. The experience of the Voilap group in this sector is a perfect example of the meticulous pursuit of perfection. In some companies of the group, in particular in Germany and Italy, there have been teams dedicated to the development of unique solutions for our customers for over 20 years.”**
